RILLO 3D

Color. Texture. Unity.

# STONEKS

THE STONEKS SURFACE STORY

## Color. Texture. Unity.

The story that begins on the floor continues on the wall. The trace of stone, the warmth of wood, and the serene look of linen establish a balanced unity in the same space.

RILLO adds a linear dimension to these surfaces, perceived through light and shadow.

# Harmony with the space. Clarity in selection. Unity in application.

From appearance to technical selection, every step is a part of your project.

- 
- 01 **A shared design language.**  
Evaluate the wall, floor, and complementary surfaces within the same color and texture palette.

---

  - 02 **The right option for your needs.**  
Choose the surface that suits the dimensions, lighting, and usage of the space among wide flat panels and 3D panels

---

  - 03 **From sample to supply.**  
Let's plan the sample, technical selection, quotation, and delivery together for residential, hotel, retail, and office projects.

# Aesthetic surface. Powerful performance.

Aesthetic surface.  
Powerful performance.

## 01 **Water-resistant surface**

Flat SPC panels adapt to wet area projects with appropriate joining and sealing details.

## 02 **Resistance to scratches and stains**

The wear layer and protective top coating on the flat panel offer resistance against the effects of daily use.

## 03 **Strong composite structure**

The stone polymer composite core provides a robust load-bearing structure to the surface.

## 04 **Wide surface effect**

Large-format flat panels present the pattern with a layout that reduces interruptions in wide areas.

## 05 **Practical application**

Ensures a planned installation on a prepared wall with adhesive and fixing suited to the model.

## 06 **Easy maintenance**

Daily cleaning is made easy with a microfiber cloth and a suitable cleaner.

### CORRECT APPLICATION ACCORDING TO THE SURFACE

Fire, emission, acoustic, and thermal values are evaluated through the documents of the product and application system.

## Three looks. A linear dimension.

First, choose the color and texture, then select the flat surface or RILLO 3D panel.

### PETRA WALL

On the trail of stone.

19 decors / 7 slatted concepts

PAGE 6

### SILVA WALL

In the tones of wood.

4 decors / 4 slatted concepts

PAGE 11

### TELA

A serene texture.

4 decors / 4 slatted concepts

PAGE 13

### RILLO

15 matching decors + 2 special panels / Total 17 slatted concepts

PAGE 15

# Wide surface. Distinct depth.

The flat panel and slatted panel offer two distinct structures for different application needs.

| SPECIFICATION      | FLAT PANEL                                  | RILLO / MODEL A                  | RILLO / MODEL B                  |
|--------------------|---------------------------------------------|----------------------------------|----------------------------------|
| Panel dimensions   | 960 × 2800 mm                               | 160 × 2750 mm                    | 186 × 2750 mm                    |
| Total thickness    | 4,0 mm                                      | 24 mm profile                    | 14 mm profile                    |
| Core               | Endurance Tech SPC rigid composite core     | SPC rigid composite core         | SPC rigid composite core         |
| Surface protection | 0.30 mm wear layer + protective top coating | Protective layer over print film | Protective layer over print film |
| Joint              | Flat edge                                   | Profile interlocking             | Profile interlocking             |
| Fixing             | Adhesive; joint and edge details            | High Tack Glue                   | High Tack Glue                   |

Dimensions and technical structure are evaluated together with the current technical data sheet of the selected product code. The dimensions of RILLO special profiles are clarified separately.

SURFACE / TECHNICAL SELECTION

## Choose the look. Clarify the performance.

In the flat panel, the Endurance Tech SPC rigid composite core, decor film, wear layer, and protective top coating work together.

### Protection

Resistance against daily scratching, staining, and wear effects.

### Project performance

Reaction to fire, acoustic, and emission results are evaluated together with the selected product and installation system.

### Usage conditions

Application area, maintenance, and warranty scope are clarified according to product documents.

# STONEKS

PETRA / SHARED SURFACE FAMILY

## Begins on the floor. Completes on the wall.

Nineteen shared decors, two different surfaces. Consider the language of color and pattern on both the floor and the wall together; establish the unity of the space with the same material palette.

### PETRA WALL

960 × 2800 mm

Flat wall panel

Shared decor does not mean technical specifications are identical. Floor and wall samples should be evaluated together; each product is installed with its own installation manual.

# Let's select the surface for your project together.

Let's clarify the color, texture, and technical options together for your home, store, or project.

Numune · Teknik bilgi · Teklif · Tedarik

Space images provide a design idea; they are not completed project references or an exact application commitment for a specific decor.

- 01 Collection and decor**  
Specify the PETRA WALL, SILVA WALL, or TELA decor code. Add the 3D code for RILLO.
- 02 Usage and technical selection**  
Let's evaluate the panel dimensions and installation details together based on the application area, wall structure, and your project needs.
- 03 Quantity and delivery**  
Provide the approximate take-offs and the delivery location. We will prepare the quotation and supply plan based on the scope of your project.

# The first step, the right surface.

Contact us for samples, technical information, and quotations.
